

Guideline for Uploading Product Pages

Product Name: GAOTek Optical Fiber Power Tester Meter

For product name every single word's 1st letter should be in capital. Like O, F, P, M are in capital. If the doc has error make it correct.

Overview:

GAOTek Optical Fiber Power Tester Meter marks a giant leap forward in fiber-optic measurement performance and utility. Featuring intuitive touchscreen controls, a modular platform, real-time data analysis, and more, the device is the ideal test instrument for constructing, deploying, maintaining, and authenticating FTTH networks and verifying access networks. Multiple models and configuration options ensure your unique measurement needs are covered. Dual or multiple wavelengths from 28 dB to 45 dB are available.

From the overview use the very 1st line, up till the 1st full stop use it as short description.

Overview:

GAOTek Optical Fiber Power Tester Meter marks a giant leap forward in fiber-optic measurement performance and utility. Featuring intuitive touchscreen controls, a modular platform, real-time data analysis, and more, the device is the ideal test instrument for constructing, deploying, maintaining, and authenticating FTTH networks and verifying access networks. Multiple models and configuration options ensure your unique measurement needs are covered. Dual or multiple wavelengths from 28 dB to 45 dB are available.

Features:

Remove colon (:) from every heading , also from the table. We don't use any colon. And make all the heading **Heading 2**. Keep 1 or 2 space after finishing one para (see **Blue line**)

Meta Description: This Optical Power Meter has offers android 12 operating system,4 GB RAM and 64 GB ROM, and 3.7 V 6000 mAh lithium battery.

When you find Meta Description don't use it in the main body rather only use its paragraph as short description (**blue line**). And don't include the heading (**red one**).

*** Always add what you get in the doc file. Don't add any thing extra. Like if there is no overview in the doc don't include it. Likewise features and so on. (If there is no overview and meta part you don't need to include short description.

The image shows a screenshot of a product upload interface. It contains two main sections: 'Product image' and 'Product gallery'. Each section has a title, a set of three small arrows (up, down, left) for navigation, and a text input field with a placeholder label and a help icon. The 'Product image' section has the placeholder 'Set product image' and the 'Product gallery' section has the placeholder 'Add product gallery images'.

For Image gallery use all the images except one and that one will be used as product image.

Excell Sheet

In Excell You need to fill out these field:

- 1) Product Name,
- 2) Supplier link,
- 3) Product ID,
- 4) Category,
- 5) Link on GAOLab,
- 6) Intern Name

Optical Power Meters

https://www.alibaba.com/product-detail/AE3100-400km-Distance-handheld-otdr-1650nm_1600268020144.html?spm=a2700.galleryofferlist.normal_offer.d_title.75044497UaJvhX

Green one will be the **Category** for every product in a single doc. And red mark link is the supplier link for a product. Every product has a different supplier link.

Product name, Product ID will be copied from the doc file.
